THE REACH BORON CONSORTIUM

LETTER OF ACCESS FEE STRUCTURE

The Letter of Access fee structure prepared by REACH Boron Consortium is based on principles of fairness, proportionality, transparency and non-discrimination.

While the underlying fee methodology remains consistent with the original LOA fee review, the fee structure has been updated using the most recent consortium cost data available in 2025.[1] After evaluating the various options for Letter of Access fees, including a flat fee structure and a banded fee structure, it was decided to continue with a per tonne fee structure for the ≥10 tonnes band, but to change to a flat fee structure for the 1-10 tonnes band. Our LOA fees have been based on the anticipated tonnage of boron or phosphorus to be manufactured in or imported into the EU for the year in question, subject to the applicable minimum fee[2] since 2018 which already has passed the registration deadline.

The following fees are applicable:

Substance	Per tonne fee	Flat fee
Boron [EC no. 231-151-2, CAS no. 7440-42-8] Elemental 1-10 tonnes band		**Please enquire[3]**
Boron [EC no. 231-151-2, CAS no. 7440-42-8] Elemental ≥10 tonnes band	**Please enquire[3]**	
Boron [EC no. 231-151-2, CAS no. 7440-42-8] In alloys 1-10 tonnes band		**€16,155**
Boron [EC no. 231-151-2, CAS no. 7440-42-8] In alloys ≥10 tonnes band	**€1,782 (minimum €39,600)**	
Phosphorus [EC no. 231-768-7, CAS no. 7723-14-0] In alloys 1-10 tonnes band		**€3,500**
Phosphorus [EC no. 231-768-7, CAS no. 7723-14-0] In alloys ≥10 tonnes band	**€358 (minimum €29,280)**	

- Letters of Access are available on a per legal entity basis
- An administration fee of €1,750 per Letter of Access will be charged.
- All fees and charges are subject to any applicable taxes such as value added tax [VAT].

In the event that a company which has purchased a Letter of Access at the 1-10 tonnes band wishes to upgrade to a higher tonnage band as per paragraph 2.6 of the Letter of Access Agreement, an additional fee will be payable. This is based on the per tonne fee for the anticipated tonnage concerned, subject to the applicable minimum fee as specified in the table above (less the fee already paid for the 1-10 tonnes band). A handling fee of € 1,750 will be applied for administering the change.
